**Transaction Report Printing Tip:** There are two options provided for saving and printing transaction reports. When attempting to print a large report (over 50 transactions) we suggest you use the "Save as PDF" button to first save the report as a PDF and then print out the formatted report. Saving as a PDF will require the free [Adobe Reader](#).

If you have searched for transactions for a short time period and/or have a smaller number of transactions, using the "Print" button will print out the transaction page you are viewing. Please make sure your print settings will scale or shrink this page to your paper width in order to print properly.

**Please Note:** The transactions displayed above are selected and sorted by **posting** date.  
Click any column heading to display the transactions in the column order.
